MALHAAR

Annual Fest of BPIT

HACKBPIT

INDIA'S BIGGEST STUDENT RUN 24 HOUR HACKATHON

23/11 – 24/11

HACKBPIT.DEVFOLIO.CO

ABOUT

Bhagwan Parshuram Institute of technology is organising HackBPIT a 24 hour hackathon in our annual fest "Malhaar 22" in collaboration with Computer Society of India (CSI). Our aim is impacting innovation within the student community and promoting young entrepreneurs to advance in their endeavours.

RULES
REGULATIONS

The event will be conducted in 2 rounds :

- Round 1 - This round will be an idea submission round in which you will be required to submit a PPT for review of the idea and from here the top 30 teams will move on to the next round.
- Round 2 - This round will be in offline mode where you will have to develop the idea that you have submitted.

The idea should be available for free and should be open source

- Every participant must register on https://hackbpit.devfolio.co/
- Team Formation Rules - Each team would comprise of 2 to 4 members (including a team leader)
- Team members could be of different institutions as well. Make sure you have the proper college Id-card for reference.
- Teams should be made up exclusively of students who are not organizers, volunteers, judges, sponsors, or in any other privileged position at the event.
- Round 1 would be online. The teams have to submit their idea by 18th November 2022 on https://hackbpit.devfolio.co/
- Results of Round 1 will be declared on 20th November 2022 and result will be displayed on the website and the shortlisted teams will be notified via emails.

HACKBPIT.DEVFOLIO.CO

- The offline hackathon begins on 23rd November 2022 and ends on 24th November 2022.
- The submission is on 24th November 2022 at 11 am, a PPT for the idea should be submitted explaining the idea.
- Teams that have not submitted the idea will be automatically disqualified.
- Already implemented ideas can be used but extra points will be given to original and innovative ideas.
- All work on a project should be done during the Hackathon. Your code repository must be initialized at the beginning of Hackathon itself.
- Teams can use libraries, frameworks, or open-source code in their projects. Working on a project before the event and open-sourcing it for the sole purpose of using the code during the event is against the spirit of the rules and is not allowed.
- Teams must stop hacking once the time is up.
- Teams can be disqualified from the competition at the organizers' discretion. Reasons might include but are not limited to breaking the Competition Rules, breaking the Code of Conduct, or other unsporting behavior.
- The judges decision will be final and binding.
- In case of any discrepancies, the final take shall lie with the organizers.
- One person can not be a part of more than one team
- One team can submit one idea only.
- Refreshments would be provided by the organizing college itself.

EVALUATION CRITERA

The Evaluation criteria will include :

- **Communication:** A well written README and PPT are important. These will determine the first round of elimination. Before your code is reviewed, the quality of your README will be. Please be concise in explaining what your project does, how to install it, test it, and use it. Similarly, write concise and meaningful commit messages that show the progression of the project.
- **Completeness:** Applications must be complete and working.
- **Design and aesthetics:** If you are making a user interface, try and ensure that they are clean, modern, and usable.
- **Timeframe:** The project must be reasonably built within the given timeframe.
- **Credits:** If you are using existing code, make sure you credit it. Plagiarism, which is all too common unfortunately, is strictly not appreciated.
- **PPT:** Participants must submit the presentation before the clock ends.
